

## Amplificateur Cambridge Audio Azur 740A

**HI-FI WORLD**

"I was shocked to experience what the Cambridge could do in action via the Spendors...the 740A above all else and over all genres showed a tremendous sense of ease.... Unusually revealing, it offers a sumptuous performance of class-leading proportions"

*Hi-Fi World* May 2009

**Hi-fi Choice**

"Delivering a sound quality that is unheard of at the price, coupled to all the convenience and flexibility of a 21st century amplifier design, the Azur 740A rocks!"

*Hi-Fi Choice Awards* 2008

Winner of Gold award

Highlight**

"Der Azur 740A gab sich als Feingeist mit schier grenzenloser Leistung zu erkennen, der 740C ist ein schlackenfreier CD-Player, der als Wandler auch DVB-Tunern zu deutlich mehr Wohlklang verhilft."

"The 740A has almost boundless energy and benefits from multi-room compatibility while the 740C is sensationally jitter free with fine sound."

*Stereoplay (Germany)* June 2008

"It's open, clear, fast and beautifully detailed. The Azur 740A's unfailing resolution brought out the best in every recording I played... bass, mid-range, and top end are perfectly balanced - and the sound is as clean as a whistle."

*Playback (USA)* April 2008

**AUDIO**

"Überragend... hochdynamisch. 90%"

"Outstanding... highly dynamic. 90%"

*Audio (Germany)* March 2008

(Winner of amplifier group test)

"An impressive selection of quality kit for the money, features aplenty and well timed, wide band sound... a definite winner."

*Hi-Fi Choice Awards 2007*

*Winner of Diapason d'or (France)* November 2007

"lean, clear, open, very detailed."

*Stereophile (USA)* October 2007

'Recommended Component'

"Genuino High End del máximo número posible de aficionados..."

"Genuine High End for all..."

*OnOff (Spain)* No 182

"There was a hell of a lot to like about the Azur 740s, but probably the best aspect of their sound quality was their ability to convey the emotion of each performer I listened to. This allows the listener to experience music in a way that touches the senses... I'm very impressed. Yet another success for Cambridge, for whom everything audio seems to turn to gold."

*Tone (New Zealand)* September 2007

(Reviewed with Azur 740C upsampling CD player)

"If you asked me to recommend a solid-state integrated amplifier for a kilobuck, the 740A would be tops on my list."

*Stereophile (USA)* September 2007

"The modern audiophile will be hard pressed to find anything near the price of this machine that does so much, so well. The 740A amplifier is a component I am very happy to recommend, particularly in partnership with the 740C CD player."

*Audio Enz (New Zealand) August 2007*

"Cambridge Audio have come up with a welcome addition to their range in the 740A... When you consider its sound quality, high build standard and facilities, it merits firm recommendation."

*Hi-Fi World (August 2007)*

"Dit is een combinatie van elektronica die ik graag aanbeveel."

"This is a combination of electronics that I would gladly recommend."

*Music Emotion (Netherlands) June 2007*

(Reviewed with Azur 740C upsampling CD player)

"큰 돈을 들이지 않고 편안한 마음으로 음악이 안겨주는 즐거움을 얻고자 하는 애호가들 위한 시스템이 아주르 740A와 740C라고 하면 좋을 것 같다."

"The Azur 740A and 740C system is for audiophiles who take pleasure in listening to music at a reasonable price"

*Audio (Korea) June 2007*

"Excellent treble, very good imaging and a real sense of musical involvement are all well above the class average. Considering the sum of features and sound, this is one of the most attractive mid-price amps we know."

*Hi-Fi Choice June 2007*
