SUBJECT: Bryston Model T Review

Hi Folks,

Please see below link for a new review on the Bryston Model T speaker In Soundstage Magazine. It is encouraging to see a magazine review that includes extensive objective measurements to go along with the reviewers subjective opinion.

Please pay special attention to this link below showing the superb anechoic measurements of the Model T taken at the NRC in Ottawa.

Soundstage tells me these are excellent measurements at any price point but at Bryston price points they are exceptional! The reviewer also told me that the Model T measured better (flatter) than any other speaker he has tested in his listening room.

Regards,  
James
